«A Corps Ouvert» _Danse Hip Hop
Chorégraphie, mise en scène: Amaury Réot

Alliance company / Hip Hop dance

A corps ouvert

Armed with a strong wish to respect and promote the spirit of hip hop culture, the dancers of Alliance company push the boundaries of this dance in order to set free it's essential essence.

Amaury Réot minutely dissects and softens the angles magnifying gestures and playing on skills.

"A Corps Ouvert" exposes intense need to upset the equilibrium in order to unleash a spontaneous energy and to decode the mysterious force which incessantly pushes the dancer. This performance retraces also the story of Alliances crew which was built upon inflammatory battles. "First to encounter, to know and then to recognize".

Sparing excesses, the seven performers deconstruct unconscious movement and resonate from within their bodies.

"A Corps Ouvert" soundscape evolves encompassing electro based loops, accents of rock and hip hop acoustics. The composer *Maxime Marecaux* creates a backdrop for the performance through his interpretation and onstage presence.

The route between choreographic exploration and innate movement is established. A place of communion for the body exposed is delineated.
